Microglia, the brain's primary immune sentinels, quickly regenerate and restore their population after an acute insult. Lihong Zhan, Li Gan and colleagues use lineage tracing to address the debate about the origin of repopulating microglia and describes the spatial and temporal characteristics of microglial regeneration. Zoological Citation Notes --M *Orthotomus atrogularis major* Nomenclature. Watson, in Peters Checklist 11:180 (1986) proposed a replacement name *anambensis* due to the 1899 name "*Orthotomus major*" that Blundell & Lovatt gave to an Abyssinian bird. Hypochondria is the interpretation of bodily symptoms as signs of a serious illness. Frequently the symptoms are normal bodily functions, such as coughing, pain, sores, or sweating. This introductory course is designed for transfer students in business, information systems, and/or accounting. Topics include the accounting cycle, preparation and analysis of financial statements, internal control, depreciation, inventories, receivables, liabilities, stockholders' equity, ethical issues, and accounting as a decision-making tool.
